

Punch list management procedure

VR-DEMO-001-COM-PRC-0005 Rev 0 2025-12-06

Page 1

1. Purpose

This procedure sets out how the VR-DEMO-001 team carries out the punch list management work, who is responsible and which records are kept.

2. Responsibilities

The project manager owns this procedure. Discipline leads apply it to their scope and the document controller keeps the records in the project document repository.

3. Procedure

Each step is recorded in the VissRad module that owns the record, so that the status is visible to the whole team and the audit trail is complete.

Records refer to the controlled documents by number and revision. Superseded revisions are kept and marked as superseded.

4. Records

The records listed in this procedure are kept until handover and then transferred to the operator with the completions dossier.
