

Flare hydraulic calculation — A40

VR-DEMO-001-PRO-CAL-0002 Rev 0 2025-10-01

Page 1

1. Basis

Inputs are taken from the design basis and the current revision of the referenced drawings for area A40.

2. Method

The method follows the company standard for this discipline. Assumptions are listed and checked by the discipline checker.

3. Results

Results are within the design limits. Checked by R. Baptiste.
